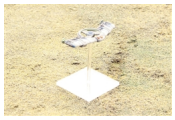
Convenant of Antartica Ptolemy Class Bomber



The iconic Ptolemy Class Bomber is a very distinct aerial unit built around a central ring housing a single large rotor. With the exception of a single fore-facing gun, all of its armament is wing-mounted ballast weaponry in the ship of bombs and mines, either of which can be dropped at a single time. The Swift Ascent MAR allows the Ptolemy to attack and then disappear into the clouds to save it from immediate retribution as it becomes obscured.
