Description
Legion: Lylyth, Shadow of Everblight

Contains one unassembled and unpainted metal model.

Lylyth has arisen from recent conflicts as the leading edge of Everblight's armies and has spread the dragon's shadow across the lands of western Immoren. She and her handpicked followers cut down any who oppose the Legion with unerring precision. Empowered to range far from the center of Everblight's power, Lylyth drives her advanced strike elements with peerless grace and lethality.
