Empire of the Blazing Sun Bansan Class Small Walker

Large Squadrons of Bansan Class Small Walkers are frightening opponents, both at close quarters and long range. The rotary rocket launcher operates like a huge Catherine wheel, with the blast of each rocket pushing the next tube into its firing position. It fires very rapidly, providing agile and powerful fire support for other units on the attack. It also functions as a highly effective mobile emplacement when a force using the walkers is on the defensive.
